

# Learning Ladder

## Environmental Science Grade 1

**Unit1: Ourselves**

**Periods Allotted = 57**

= Learning Competencies

= Learning Outcome

	<b>identify by tasting, smelling and touching.</b>
	<b>make relevant observations by smelling</b>
	be aware of the dangers of smelling
	<b>Identify objects by touch</b>
	describe coarse/ smooth, warm/cold
	<b>make relevant observations using taste</b>
	be aware of the dangers of tasting
	describe the tastes of common substances
	<b>make relevant observations using hearing</b>
	identify common sources of sound
	<b>make relevant observations using sight</b>
	prepare colors using leaves and flowers
	identify at least seven colors
	identify sources of colors
	identify sources of light
	<b>explain the function of sense organs</b>
	name the five sense organs
	<b>demonstrate prevention methods of some common diseases</b>
	describe precautions to avoid diseases
	name some common diseases
	<b>explain the importance of basic needs</b>
	list the raw materials shelters
	list the raw materials for clothing
	list the three basic human needs
	<b>care for external body parts</b>
	tell the functions of external body parts
	name their external body parts
	show their external body parts
